

Our Mission

The Great Lakes Super Sprints (GLSS) Education Program goals are to stimulate student interest as well as inquiry and provide insight, information, and knowledge that pertain to core content that is being taught.

What is GLSS Education Program?

The GLSS Education Program is a new, unique opportunity offered to grades 3-5. The program will highlight science and engineering content expectations. Students will experience a presentation about sprint car racing in an actual race car hauler. Connections will be made between their learning and life applications.

What is the cost?

The program is free to schools.

What grades is the GLSS Education Program intended for?

The program is for grades 3-5.

Why should I schedule the GLSS Education Program to come to my school?

The GLSS Education Program is a free resource to schools that helps to bring STEM (Science, Technology, Engineering and Math) practices into your current education program. The GLSS Education Program helps to make connections to learning, excite students, and motivate students to learn.

What does a school need to have in order for the GLSS Education Program to visit?

The only requirement is a place to park the approximately 80 foot truck and trailer. The truck and trailer are self-contained and does not need to connect in any way to your school.

Please contact Christy Brakenberry for further information and/or scheduling. teachertoots@gmail.com (989)780-0016 . Find race info at www.glss.rocks
